

Your donations *in action*

State-of-the-art children's surgery center, specifically designed for the unique needs of children

Child-friendly décor and movie goggles make for a stress-free experience during MRI scans

Portable ultrasound machine helps visualize kids' small veins so they have fewer needle 'pokes'

Fetal surgery to help provide specialized care for mother and baby before birth

With wireless monitors, children can be out of their room and staff can still monitor their vitals

Art therapy so kids can express themselves and share their experiences

Sib Sacs help brothers and sisters understand and cope with their sibling's hospitalization

A webcam for every NICU bed so parents can see their baby when they're not at the bedside

100% of donations help kids treated at UC Davis Children's Hospital, the region's only Children's Miracle Network Hospital.
