Who is eligible for a FREE mammogram appointment?

Women ages 40-74 who:

- Have not had a screening mammogram in the 12 months
- Do not have insurance or are underinsured
- Have no symptoms (such as lumps, pain, swelling, or discharge)

Who needs a mammogram?

All women who are 40-74 years old should have a mammogram at least once every other year

What is a mammogram?

A breast cancer screening test that takes x-ray images of your breasts for a doctor to examine

If breast cancer is developing, it is important to catch it early.

Mammograms help detect breast cancer early.

At your appointment you will be asked to release your screening mammogram results to WellSpace Health, because they will provide any further testing if it is needed, and/or help get you other health care.
