Confirms signed consent per Clinical Policy 1411		
If applicable, sends OR scheduling request through EMR and verifies anesthesia request via SnapBoard		
Identifies indication for procedure; identifies potential complications and nursing intervention		
Obtains equipment needed to safely assist with frame or mask procedure. Demonstrates safe operation of all equipment		
Participates in the procedural pause per Clinical Policy 4019		
Prepares patient for Gamma Knife head frame placement or Gamma Knife Icon mask prior to frame placement and treatment		
Assist patient and provider during head frame placement or mask making process		
Documents all pertinent information in the Stereotactic Surgery flowsheet in EMR. If sedation is indicated, documents on sedation flowsheet		
Documents patient teaching in the electronic medical record (EMR) and prints the After-Visit-Summary (AVS)		
Performs and documents RN Handoff report when assuming or transferring care. Creates a telephone encounter for pre- and post-procedural calls		
Documents post treatment calls

Understands operating instructions for equipment and obtains necessary equipment needed to safely assist with the procedure		
Identify procedure(s) and its indication: <ol style="list-style-type: none"> 1. Tandem and Ring 2. Random and Ring with needles 3. Cylinder with needles 4. Cylinder treatments 5. Interstitial 		
Confirms and signs consent per UC Davis Health Policy 1411: Consent to Operation, Procedures, Blood Transfusion and Administration of Anesthetics		
Confirm appointment in Mosaic and EMR		
IF applicable: Send OR scheduling request through EMR and verifies anesthesia request in Snapboard		
Checks, confirms lab results, confirms anesthesia assignment in Snapboard the day prior to procedure		
Creates a telephone encounter for pre-procedural calls (confirm time of arrival, answers questions, preparation and confirm blood test prior to procedure)		
Day of procedure: <ol style="list-style-type: none"> 1. Start IV and start hydration. 2. Assess patient for airway access, NPO Status, medications taken, vital signs, weight, lung status. 3. Attach electrodes to obtain baseline. 4. Prepares pre-procedure medication. 5. Communicates with Anesthesiologist and procedural MD re: start time and patient needs 		
Participate in Procedural Pause: <ol style="list-style-type: none"> 1. Procedural and anesthesia consent signed and available. 2. Labs are acceptable. 3. Procedure MD, staff, RT available, Physicist if applicable 4. Equipment and instruments ready 5. Patient confirms name, date of birth, and procedure 		
Assist patient and anesthesiologist in positioning during induction of anesthesia (skip if sedation only procedure)		
Assist the procedural MD and Radiation Therapist during the procedure when not sedating		
Stays with the patient in the room to circulate and monitor the patient

High Dose Radiation (HDR) Gynecological Brachytherapy Procedure DAHS-NSCHDRGBP continued	Date	Verifier Initials
Set up/applies alternating leg pressure device (ALPS) and Mistral Air device throughout the entire procedure.		
Assists and confirms correct positioning		
Performs skin prep aseptically		
Inserts Foley catheter to drainage bag, apply clamp if needed		
Documents in EMR: procedure, medication, complication, interventions		
Receives handoff report from anesthesia or other staff		
Secure intraprocedural medications		
Medicate patient as needed and document in EMR. Refer to Sedation Policy. Assess for signs and symptoms of pain		
Documents treatment pause, treatment start and treatment end		
Monitors patient outside the room and document during treatment		
Assess patient for bleeding, assist MD in hemostasis		
Removes Foley catheter and documents output		
Provide after care (removal of excess prep on skin)		
Assists in positioning patient		
Assists transfer of patient to gurney and transfer to recovery area		
Assists during recovery: Monitor vital signs, assess for anesthesia residual, monitor intake and tolerance		
Communicates discharge instructions to patient and document patient teaching in EMR and print the After Visit Summary (AVS)		
Documents hand off report when assuming or transferring care		
Assist patient in scheduling follow up appointments before discharge if applicable		
Returns medications and document in Pyxis		
Discharge patient via wheelchair and document in EMR		
Performs after care of procedural and recovery areas		
Prepare and set up for next procedure

Assist patient and Anesthesiologist in positioning during induction of Anesthesia (Skip if Sedation only Procedure).		
Assist the procedural MD and Radiation Therapist during the procedure.		
Stays with patient in the room to circulate and monitor the patient.		
Sets up/Applies Alternating Leg Pressure device and Mistral Air Device throughout the entire procedure.		
Assists and confirms correct positioning.		
Performs skin prep aseptically.		
Inserts Foley catheter to drainage bag.		
Documents in EMR: Procedure, Medication, complication, interventions.		
Assist procedural MD in set up and document Cystoscopy as needed. (Please refer to Cystoscopy policy and procedure).		
Document Treatment Pause, Treatment start and end.		
Monitors patient outside the room and document during treatment.		
Assess patient for bleeding, assist MD in hemostasis.		
Replace Foley catheter and document output.		
Provide after care e.g. removal of excess prep on skin.		
Assists and Document in Positioning patient and Anesthesia removal of Epidural catheter (if applicable).		
Assists in repositioning patient for Fiducial and Space OAR placement (If applicable)		
Receives Handoff report from Anesthesia or other staff.		
Apply Cool Compress to Perineal area.		
Assists transfer of patient in gurney and transfer to recovery area.		
Monitors patient vital signs, assess for Anesthesia residual, monitor intake and tolerance, checking patient's bladder and urine output.		
Teaches patient re: removal of Foley catheter.		
Communicates discharge instructions to patient and Document patient teaching in EMR and printing the After Visit Summary (AVS).		
Documents hand off report when assuming or transferring care.
