**INDUSTRY DAY
OCTOBER 21, 2022**

We are hosting UC Davis Health's first ever **Industry Day** event to present to the community of AECs, Subcontractors and other interested parties for our \$7.5 Billion in-flight projects including a **12 month look ahead of future RFQs, design and construction projects.** Due to the huge influx of projects within our health care system, we are interested in expanding our bench of consultants to help deliver this once in a lifetime capital program." We welcome you all to attend in person or virtual.
