provided through e-mail.**

CME will be provided

Advanced Practice Grand Rounds

Billing and benchmarking in advanced practice

Aaron is the Director of Ambulatory Advanced Practice for UC Davis Health. He is a Master's prepared and board certified family nurse practitioner with 18 years of APP experience in surgical specialty care including Trauma Surgery, Acute Care Surgery, Minimally Invasive Surgery, Surgical Oncology, Bariatric Surgery, and Colorectal Surgery. He has progressively worked to improve patient experiences and outcomes through research, publication, and performance improvement. He has also managed UC Davis Health's level 1 adult and pediatric Trauma programs and UC Davis's Trauma Quality Improvement Program (TQIP). He believes that empowering APPs with information and providing transparency in processes helps to build healthy systems and sustainable roles. His primary goal as Director of Ambulatory Advanced Practice is to be an advocate for all of the health system's ambulatory APPs.
