

The Burden of Care Across Generations: A Secondary Analysis of the 2015 AARP Caregiving in the U.S. Survey

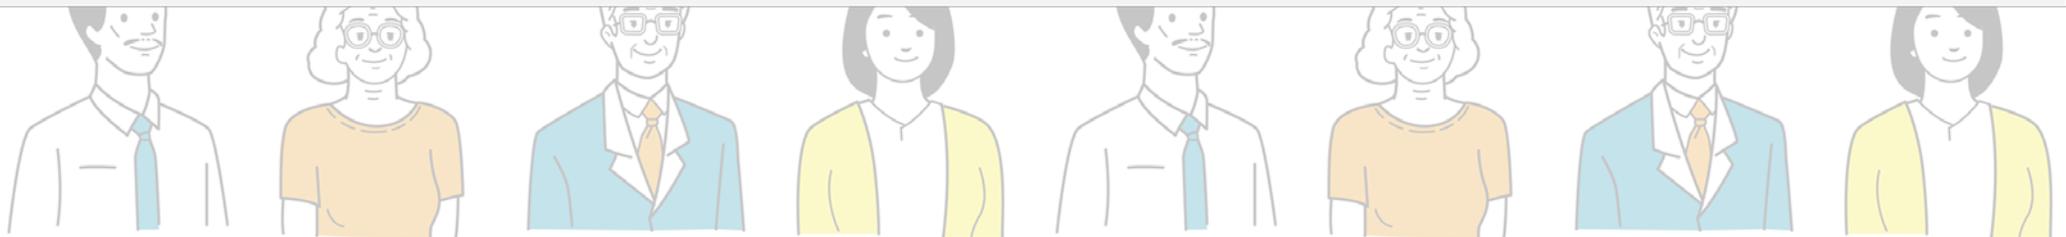

BETTY IRENE MOORE SCHOOL OF NURSING

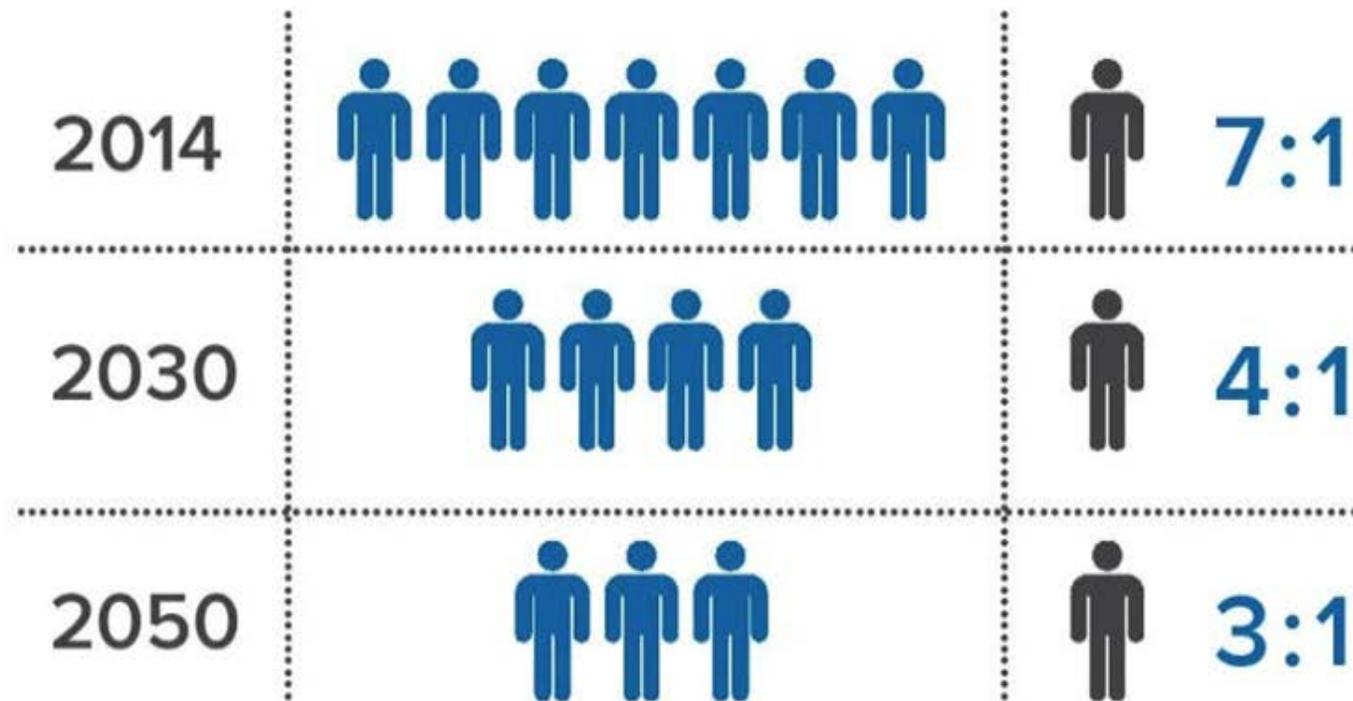

Cherrie Demayo, M.S., RN-BC
Thesis Chair: Janice Bell, Ph.D.,
M.P.H., M.N., F.A.A.N.

Family caregivers are individuals who provide *unpaid* care to a family member, friend, or other non-relative due to an acute or chronic condition.

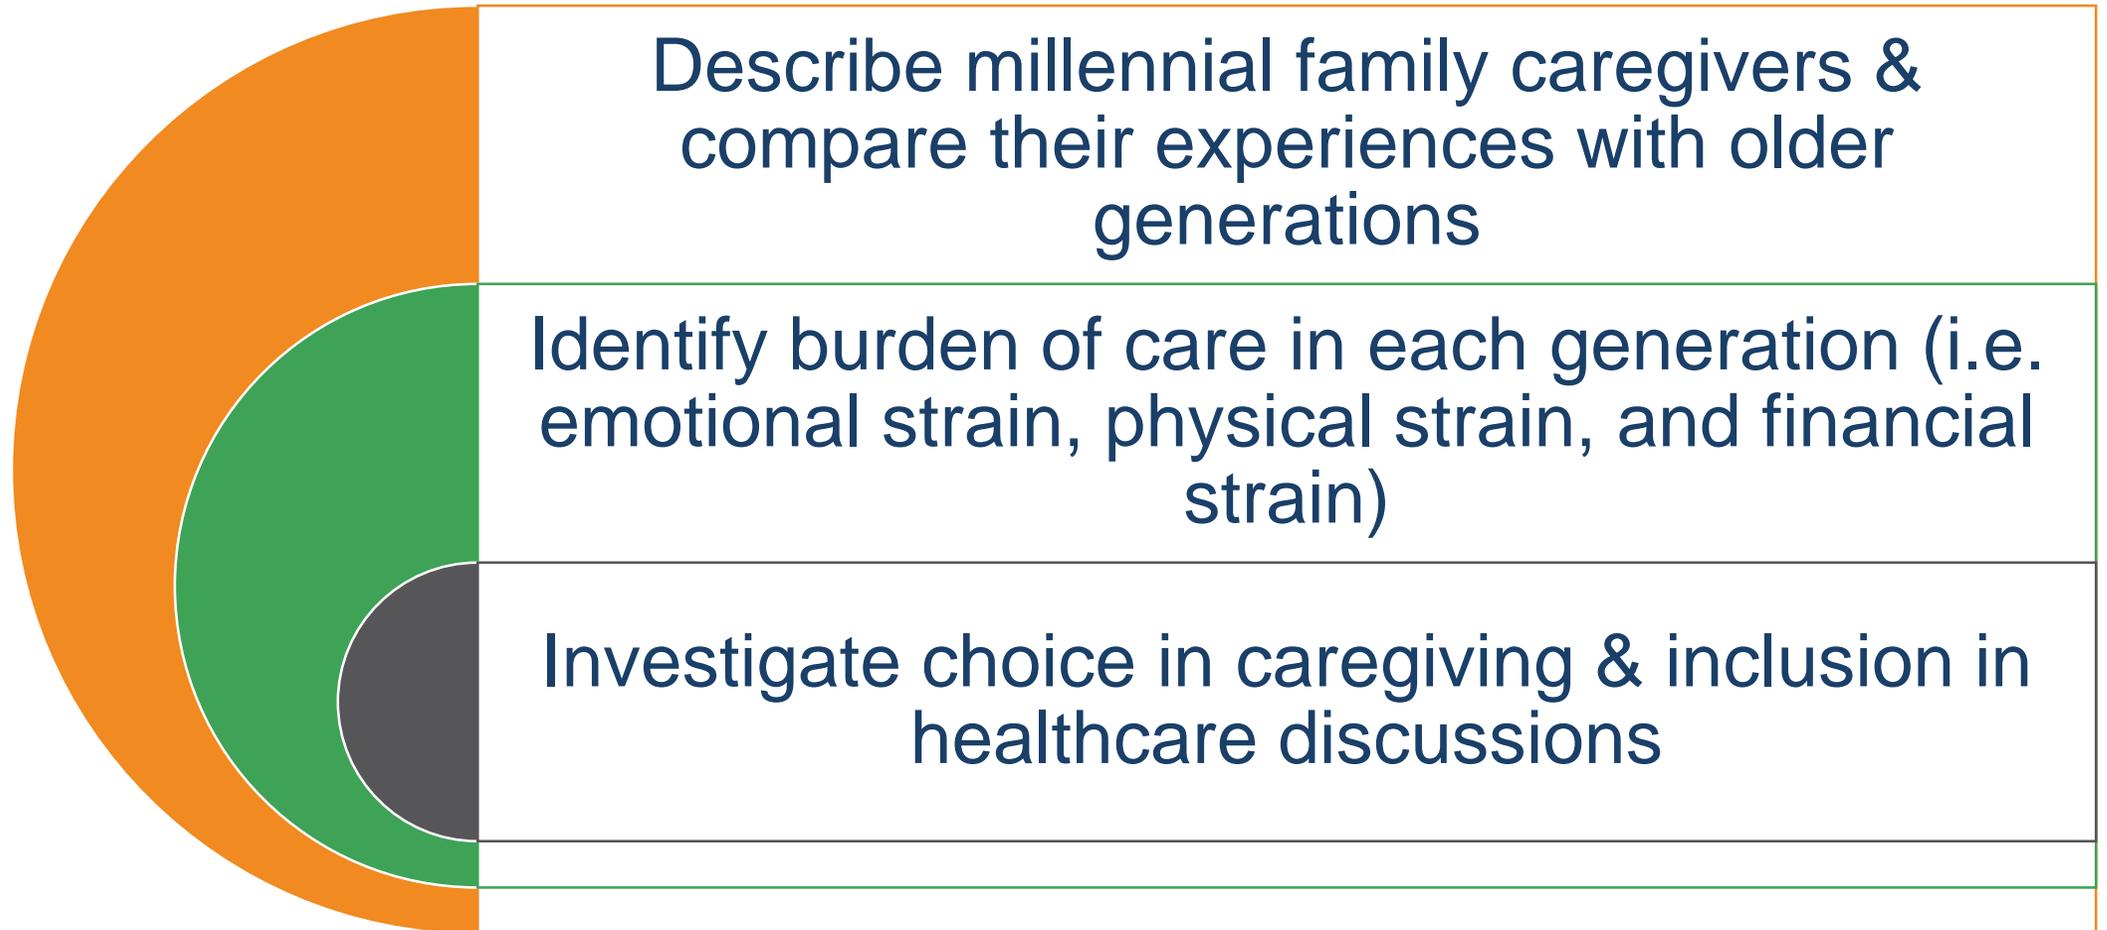

The **RATIO OF CAREGIVERS**
(45-65 years old) to those over 80 will shrink.
