### Objectives

- Identify important histopathological features of Spitzoid lesions.
- Learn the basics of the method of mass spectrometry and its application in studying tissue sections of Spitzoid lesions.
- Comprehend the importance of molecular tests in arriving at the correct diagnosis when evaluating melanocytic lesions.

# April 16

**Rossitza Lazova, M.D.**  
Medical Director  
Arizona Dermatopathology  
Sonic Healthcare, USA

Dr. Lazova is a former director of the California Skin Institute Department of Pathology in San Jose, CA and the former Dermatopathology Fellowship Director at Yale University.

She received the 2020 Walter R. Nickel Award for Excellence in Teaching of Dermatopathology from the American Society of Dermatopathology and has presented numerous courses at annual meetings of the International Society of Dermatopathology (ISDP), the American Society of Dermatopathology, and the American Academy of Dermatology. She is the Secretary/Treasurer of the ISDP and future president.
