

# BRAVE KNIGHT

Long time ago, last year in March,  
Lived strong and mighty knight.

ARR..

I will  
defeat you!

But for two month he had an ache  
and was sensitive to light

The sun is  
very bright!

Do I get to  
miss school?

Knight's Doctor told him that he needs  
a lengthy MRI

"I'm not afraid, but won't hold still" He  
mumbled with a sigh

The Anesthesia wizard said "dear  
knight don't be afraid"

No food or  
juice before  
your test!

With magic potions, I will come to  
rescue and your aid!

Will I be  
sleeping?

Yes, brave  
knight

When Anesthesia Wizard gave  
the Knight her sleeping potion  
The Knight felt like the world around  
Was rolling in slow motion

As soon as Knight opened his eyes  
He saw a shield, which was his prize

Go on and save the world Brave Knight  
We know you might be tired  
Your strength and bravery to fight  
The dragons are required

No metal  
inside  
MRI!

Good job!  
We are  
all done!

Oh no, he is  
stronger than  
ever!
