

September 20, 2022

Hello,

We appreciate your continued support. To simplify test ordering and address increases in operational costs, we will be making a small change to our test menu and an additional price adjustment to the immunodiffusion and complement fixation testing. This price increase and test orderable change will be effective November 1, 2022. Please reference the updated test requisition forms for human and veterinary patients at our website <https://health.ucdavis.edu/valley-fever/>.

This was a difficult decision to make, as we know the effect it can have on our customers. We thank you for your understanding and support during this change, and as always, we promise to continue to deliver the highest quality services possible. If you have any questions, comments, or concerns, please reach out to coccy@ucdavis.edu.

Sincerely,

The Coccidioidomycosis Serology Laboratory
